- ⑬ I.D. AUTO-FILL SELECTOR. If user selects this, user-name/email address/password can be filled automatically

The wireframe illustrates the layout of a sign-in page. It is divided into three main horizontal sections: a header, a sidebar, and a main content area. The header (1) contains a no-COVID notice (2) and a large logo (3). The sidebar (4) features a hero image (5). The main content area (6) is the largest section and contains the sign-in form. At the top of the main area is a title/call to action (7) labeled 'SIGN-IN'. Below this is a large input box for the username/email address (8), with a label (9) 'USERNAME BOX LABEL' and an info icon (10) for help. A forgotten username link (11) is positioned below the input box. To the right of the input box is an I.D. auto-fill icon (12) and a selector (13). Below the input box is another input box for the password (14), with a label (15) 'PASSWORD BOX LABEL' and an info icon (16). A forgot password link (17) is located below the password input box. The bottom section of the main area contains a row of three input boxes (18, 19, 20) for additional information, followed by a row of three checkboxes (21, 22, 23) and a row of three radio buttons (24, 25, 26). The footer (27) contains a row of three input boxes (28, 29, 30) and a row of three checkboxes (31, 32, 33).
